NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

December 3, 2021

Mr. Bob Coffey
Executive Vice President,
Nuclear and Chief Nuclear Officer
Florida Power & Light Company
700 Universe Blvd.
Mail Stop: EX/J
Juno Beach, FL 33408

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE
FOR TURKEY POINT NUCLEAR GENERATING UNIT NOS. 3 AND 4
(EPID L-2021-LLA-0077 AND EPID L-2021-LLA-0078)

Dear Mr. Coffey:

By letter dated September 30, 2021, you submitted an affidavit dated September 28, 2021, executed by Paul S. Manson, Owner requesting that the information contained in the following document be withheld from public disclosure pursuant to Section 2.390 of Title 10 of the *Code of Federal Regulations* (10 CFR):

- PMC Engineering Drawing - PMCap shop fabrication details drawing, "Restoration Clamp Assembly Details," Drawing No. 202111-M-0001, P6, Sheets 1 through 3

A nonproprietary copy of this document has been placed in the U.S. Nuclear Regulatory Commission's (NRC) Public Document Room and added to the NRC Library in the Agencywide Documents Access and Management System (ADAMS) Accession No. ML21273A240.

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- a. Information that discloses a process, method, or apparatus, including supporting data and analysis, where prevention of its use by PMC Engineering Solutions, Inc.'s competitors without license from PMC Engineering Solutions, Inc. constitutes an economic advantage over other companies
- b. Information which, if used by a competitor, would reduce their expenditure of resources, or improve their competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing of a similar product
- d. Information which discloses patentable subject matter for which it may be desirable to obtain patent protection

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, have determined that the submitted information sought to be withheld contains proprietary commercial information and

should be withheld from public disclosure. Therefore, the document(s) above marked as proprietary, will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-2315.

Sincerely,

/RA/

Eva Brown, Senior Project Manager
Plant Licensing Branch II-2
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
