Dear Mr. Fajic and Mr. Seiler:

We have reviewed your amendment request dated July 20, 2021 for NRC License No. 24-24451-01 for Seiler Instrument & Manufacturing Company, Inc. We will need the following.

1. You stated that Andrew G. Leahy was retired and is no longer with your company. Based on Licensed Condition 12, Mr. Leahy is listed as a user in your license. Please provide a user who will replace Mr. Leahy as a user in the license. In addition, based on Section 8.7.2, "Authorized Users" in NUREG-1556, Volume 12, Rev. 1, please provide information regarding the training and experience for the proposed user.
2. Provide information regarding the training and experience for the proposed Assistant Radiation Safety Officer, Adam Gray. You could use the guidance discussed in Section 8.7.1, "Radiation Safety Officer", in NUREG-1556, Volume 12, Rev. 1 to provide your response.
3. Based on your renewal application dated September 7, 2011 which is listed in your license under License Condition 16.A, it appeared that your Radiation Safety Committee is comprised of the company CEO, the RSO, and others directly involved with safety and management of others and production with licensed material. If that statement is still valid, please restate.

To continue review of your application, we request that you submit your response under a dated and signed cover letter by September 7, 2021. In the cover letter, please refer the license number, docket number and Mail Control No. 627350. If you have questions, please contact me at 630-829-9623 or reply to this email.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this correspondence will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
