

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

October 1, 2021

Ms. Pat Jenny, Security Manager  
Global Laser Enrichment, LLC  
P.O. Box 780  
3901 Castle Hayne Road  
Wilmington, NC 28402

SUBJECT: GLOBAL LASER ENRICHMENT – APPROVAL OF DISPOSAL FOR  
CERTAIN CLASSIFIED MATERIALS (ENTERPRISE PROJECT IDENTIFIER  
L-2021-SPR-0002 and L-2021-PMP-0000)

Dear Ms. Jenny:

On July 28, 2021, Global Laser Enrichment (GLE) submitted to the U.S. Nuclear Regulatory Commission (NRC) a letter entitled, "Request for Approval of Disposal Method of Classified Matter," (GLE-2021-0043) (Agencywide Documents Access and Management System (ADAMS) Accession No. ML21267A541). The letter provides GLE's plans for disposal of certain classified materials and requests the NRC's approval to proceed. The U.S. Department of Energy, Office of Classification (DOE) reviewed GLE's disposal plan and identified several modifications necessary to ensure protection of classified information. The DOE provided notification to the NRC and GLE that the disposal plan with the required modifications is acceptable for protection of the classified information. The NRC staff has reviewed GLE's disposal plan, with the modifications provided by DOE, and finds it acceptable.

The NRC staff approves GLE to move forward with the disposal of the classified materials consistent with the plan and the modifications provided by DOE.

In accordance with Title 10 of the *Code of Federal Regulations* Section 2.390, "Public inspections, exemptions, requests for withholding" of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in ADAMS. ADAMS is accessible from the NRC Web site at: <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

P. Jenny
