King of Prussia, Pennsylvania 19406-

**NRC License 37-09180-01
Amendment Request**

GAI Consultants will request the following changes to their NRC Radiation Materials License 37-09180-01:

- License Condition 8A - GAI Consultants will request an increase of the number of millicuries of Cesium-137 from 117 to 250 to reflect a potential increase in business which may require additional Troxler gauge units.
- License Condition 8B - GAI Consultants will request an increase of the number of millicuries of Americium 241 from 572 to 1150 to reflect a potential increase in business which may require additional Troxler gauge units.
- License Condition 12 – GAI Consultants had previously requested to replace the Radiation Safety Officer from Andrew Greer, CSP to Bill Gourdie CSP, CET. This request took place in April 2020, but we realize that with offices closing and working remote due to the pandemic, this request may or may not have been processed.

If you have any questions or require additional information, please contact me at 412.399.5219.

Sincerely,

GAI Consultants, Inc.

A handwritten signature in blue ink, appearing to read 'Bill Gourdie'.

Bill Gourdie CSP, CET
Director, Health and Safety
