Version for Closed Meeting**

An aerial photograph of a large industrial power plant facility. In the foreground on the right, a massive, grey, cylindrical cooling tower is visible, with a thick plume of white steam rising from its top. The plant itself is a complex of various buildings, including several large, flat-roofed structures and a prominent circular building. To the left of the main plant area, there are several circular tanks or basins. The facility is surrounded by green fields and some smaller buildings in the distance. A semi-transparent white box with a thin black border is centered over the middle of the image, containing the text "Callaway VQP Pre-Submittal Meeting".
