Division of Fuel Management

Attn: Mr. Bernie White

**Re: USA/9036/B(U)-96 revision 14**

Dear Mr. White,

Source Production and Equipment Co., Inc. (SPEC) is submitting a request for renewal of our IAEA Certificate of Competent Authority Certificate for the SPEC Model C-1 Type B package. There have been no changes to the package or the package design.

The certificate does not expire until October 31, 2021, but it would be very helpful to receive the CoCA renewal early so that we can in turn have that certificate endorsed in Canada and Europe.

Thank you for your assistance with this renewal.

Sincerely,

Michael Sanchez  
Vice President & General Manager
