

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

October 14, 2021

Christopher Lamb, Chair  
Nuclear Power Engineering Committee Subcommittee 6  
Institute of Electrical and Electronics Engineers  
40 Tierra Monte St NE  
Albuquerque, NM 87122

SUBJECT: LETTER NOMINATING NUCLEAR REGULATORY COMMISSION STAFF TO  
NUCLEAR POWER ENGINEERING COMMITTEE SUBCOMMITTEE 6 FOR  
INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS

Dear Mr. Lamb:

I would like to nominate Dr. Derek Halverson as the authorized U.S. Nuclear Regulatory Commission (NRC) representative on the Institute of Electrical and Electronics Engineers Nuclear Power Engineering Committee, Subcommittee 6 on Safety Related Systems. Dr. Halverson is a Digital Instrumentation and Controls Engineer in the NRC Office of Nuclear Regulatory Research. He is responsible for activities related to safety related systems such as programmable digital devices (used as components in a safety system), operations, and analysis of instrumentation and control systems and electrical systems. Dr. Halverson brings the necessary experience and education to support the development and maintenance of standards in Subcommittee 6, and is replacing Mr. Wendell Morton, who has taken on other duties within the NRC.

In accordance with the Office of Management and Budget Circular No. A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," January 27, 2016, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on consensus standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Endorsement of these standards, if desired by the NRC, would be part of a separate activity, such as incorporation by reference into rulemaking or endorsement in an NRC regulatory guide.

Correspondence should be addressed to:

U.S. Nuclear Regulatory Commission  
ATTN: Dr. Derek Halverson  
M/S: T8A10  
Washington, D.C. 20555

Telephone: 301-415-2049  
E-mail: [Derek.Halverson@nrc.gov](mailto:Derek.Halverson@nrc.gov)

C. Lamb

- 2 -

Thank you very much for providing the NRC with the opportunity to participate in the work of your committee.

Sincerely,

 Signed by Lund, Louise  
on 10/14/21

Louise Lund, NRC Standards Executive  
Office of Nuclear Regulatory Research
