Subject: [External_Sender] The NRC must do better on Environmental Justice

To Whom it May Concern,

Please expand and enhance your consideration of environmental justice in all aspects of agency decision-making. Environmental justice means fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. It means providing both procedural and substantive protections.

Thank you for your attention,

Regards,
James Teas
