Dear Mr. Roberts:

This letter is in reference to your request dated August 12, 2021, for an amendment to your Materials License No. 21-32834-01.

The NRC's guidance document for your proposed type of license is NUREG-1556, Volume 1, Rev. 2, dated June 2016, "Consolidated Guidance About Materials Licenses, Program – Specific Guidance About Portable Gauge Licenses." This guidance is available on the NRC Web site at: <https://www.nrc.gov/docs/ML1617/ML16175A375.pdf>

Upon review of your letter, I identified the following areas where additional or clarifying information is needed:

1. Submit records of the completed transfer and/or disposal for all sealed sources or portable gauging devices previously stored at the former locations. If transferred outside of your organization, please provide a copy of the transferee's license and a letter confirming receipt of the transferred portable gauging devices.
2. Describe any incidents involving ruptured, leaking or lost sealed sources or portable gauging devices along with any other incidents involving radioactive materials at the former permanent storage locations.

In accordance with Title 10 Code of Federal Regulations §2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

To continue review of your request, please submit your response within 15 calendar days from the date of this letter. In your response, please refer to the license, docket, and control number specified below. If no response is received within the specified timeframe noted above, it will be assumed that you do not wish to proceed with the requested licensing action.

If you have questions, require additional time to respond, or require clarification on any of the information stated above, you may contact me at jason.kelly@nrc.gov or (630) 829-9737.

Sincerely,

Jason M. Kelly, MPH
