Mr. Seeley,

Please find the requested certification, with the last survey performed.

Additional to this, we would like to certify that for the time being we wish to keep the In-Vitro Kits and therapy(35.300) in our license.

Regards

Pedro J Torres

Manager

Sononuclear

Pedro,

Thank you for the information. Could I ask that you send the certification that not material was left at the facility, as well as all postings were removed, on your official letterhead? That would help us capture the information for your docket file. Thanks.

Also, did you want to remove the In-Vitro kits and therapy (35.300) at the same time?

Shawn

Certification/License Amendment

Mr. Seeley,

Regarding your question, we certify that no material was ever left in this facility as we only transported the syringe in the lead shield to be administered there to the patient and after that we transported the used, empty, syringe back to our lab. We only transported there Technetium for cardiac studies.

Regards

Pedro J. Torres

Thank you. I will be in touch. Do you have any data that shows no material was ever left behind? Like a final survey from the last time you worked there?

Thanks.

Subject: [External_Sender] Rio Piedras Sononuclear Center requested Certification/License Amendment

Mr. Seeley:

As you requested during your recent visit to our facility, please find attached to this email the following documents:

1. License Amendment for the Rio Piedras Sononuclear Center (License number: 52-24937-01) to remove an item on the conditions section.
2. The DOT Hazmat training certifications for our nuclear medicine technologists.

Any additional questions or requests to complete your inspection report, please do not hesitate to reach us.

Regards

Subject: Rio Piedras Sononuclear Center, Certification

NRC License No. 52-24937-01

Dear Mr. Seeley:

As per your instructions during your visit to our facility in September 17, 2021, we are certifying that no material was left in the Centro Cardiovascular Institute of Rio Piedras, Avenida de Diego 405, Rio Piedras, Puerto Rico. We recently requested that this facility to be removed from our license via amendment request last September 23, 2021. Our last visit to this facility was February 2018. The last survey (see attached document) was performed on February 26, 2018.

Sincerely

Dr. Jorge Toro Ramirez

Medical Director
