ATTN: Document Control Desk  
U.S. Nuclear Regulatory Commission  
11545 Rockville Pike  
Rockville, MD 20852-2738

Dear DFM Director,

In accordance with the Memorandum of Understanding between our agencies, I request that you review the attached Canadian Certificate of Competent Authority CDN/2101/B(U) (Rev. 0), dated June 30, 2021, for the ISORAD-TC1 package and make a recommendation concerning our revalidation of the package for import and export use.

Please note that the ISORAD-TC1 was reviewed by the Canadian Nuclear Safety Commission (CNSC) under the guidelines of NUREG-1886 / RD-364 "Joint Canada-United States Guide for Approval of Type B(U) and Fissile Material Transport Packages". ISO-RAD is requesting an expedited review based on the CNSC Type B application review.

To assist you in your review, a copy of the package design safety report for the ISORAD-TC1 Package, along with other supporting documents will be provided to your staff electronically.

If you have any questions or need any additional safety information, please feel free to contact Michael Conroy of my staff at (202) 366-3597 or via email at Michael.Conroy@dot.gov.

Sincerely,

Richard W. Boyle,  
Radioactive Materials  
Division of Sciences and Engineering  
Office of Hazardous Materials Safety
