10 CFR 2.390

Ladies and Gentlemen:

**DOCKET NUMBER 50-483  
CALLAWAY PLANT UNIT 1  
UNION ELECTRIC CO.  
RENEWED FACILITY OPERATING LICENSE NPF-30  
SUPPLEMENT TO PRESENTATION INFORMATION FOR SECOND PRE-APPLICATION  
MEETING REGARDING USE OF FRAMATOME FUEL AT CALLAWAY PLANT**

Reference: Ameren Missouri letter ULNRC-06694, "Presentation Information for Second Pre-Application Meeting Regarding Use of Framatome Fuel at Callaway Plant," dated September 28, 2021 (ADAMS Accession No. ML21271A611)

By letter dated September 28, 2021 (the above reference), Ameren Missouri (Union Electric) submitted presentation information that is intended to be used in a meeting scheduled with the NRC for October 14, 2021. The meeting is a follow-up (second) pre-application meeting for a license amendment request to be submitted in 2022, as needed to support the use of Framatome fuel at Callaway Plant. The provided presentation information included information that is considered proprietary to Framatome and which is to be presented in the part of the meeting that will be closed to public participation, as explained in the September 28, 2021 letter. Redacted and non-redacted versions of that presentation information were provided as Enclosures 2 and 3 to the letter.

In Enclosures 2 and 3 of the letter, brackets and notation were used to indicate the placement/location of the proprietary information and the basis for withholding the information from public disclosure pursuant to 10 CFR 2.390. An affidavit identifying the basis for withholding was supplied by Framatome and provided as Enclosure 4 to the September 28, 2021 letter. Within paragraph 6 of the provided affidavit, the various criteria considered by Framatome for classifying information as proprietary are listed. In this case, the affidavit identified two of the criteria for classifying the presentation information as proprietary. However, the notation used to identify the placement of the

proprietary information and the basis for withholding in Enclosures 2 and 3 only identified one of the criteria listed in the affidavit as applicable to the proprietary information.

Based on the identified inconsistency between the affidavit and the notation used in Enclosures 2 and 3 of the September 28, 2021 letter, which was not recognized until after submittal of the letter, it was confirmed that the basis for withholding as identified by the notation in Enclosures 2 and 3 is correct and that the affidavit itself must be corrected. Consequently, the affidavit has been revised, and it is now being submitted as the enclosure to this letter. It should be clear that the enclosed affidavit supersedes the previously provided affidavit.

This submittal does not contain new commitments.

For any questions concerning this letter, please contact Mr. Tom Elwood at 314-225-1905.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Meyer", with a long horizontal flourish extending to the right.

Steve Meyer  
Manager, Regulatory Affairs

Enclosure: Affidavit
