NUCLEAR REGULATORY COMMISSION**

REGION IV
1600 E. LAMAR BLVD
ARLINGTON, TX 76011-4511

October 21, 2021

Mr. Cleve Reasoner, Chief Executive Officer
and Chief Nuclear Officer Wolf Creek Nuclear Operating Corp.
P.O. Box 411
Burlington, KS 66839

SUBJECT: WOLF CREEK GENERATING STATION - NRC INITIAL OPERATOR
LICENSING EXAMINATION APPROVAL 05000482/2021301

Dear Mr. Reasoner:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examination at Wolf Creek Generating Station.

The NRC has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to Matt Doyle, Operations Engineer. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject examination and hereby authorizes you to administer the written examination in accordance with NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 11, on October 27, 2021. The NRC staff will administer the operating tests during the week of November 1, 2021. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at 817-200-1159.

Please contact Matt Doyle, chief examiner under instruction, at 817-200-1437 or Clyde Osterholtz, chief examiner, at 817-200-1269, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant approved to take the examination.

Sincerely,

Signed by George, Gerond
on 10/21/21

Gerond George, Chief
Operations Branch
Division of Reactor Safety
