Ms. Updike,

When we removed Item 6.H. (Cs-137 for use in a Technical Operations/Nuclear Associates Model 773 Gamma Survey instrument calibrator), the user for this calibrator, Mr. Danny Y. Dickow, M.S., should also be removed from License Condition 12.C. Could you please have the licensee (i.e., the RSO) confirm on this.

Thank you,

Frank Tran

Hi Frank - I am reviewing this license amendment and noticed that the Cs-137 source is still listed under 6.H. Was there additional information that you needed or is this an oversight?
