Subject: Request additional information for NRC License No. 21-16475-01
Date: Thursday, July 01, 2021 8:56:00 AM

Dear Ms. Updike:

This refers to the renewal license application dated May 27, 2021 for Sturgis Hospital, NRC License No. 21-16475-01. We reviewed the application in accordance with NUREG-1556, Volume 9, Revision 3 and Volume 20, Revision 1 and will need the following.

1. We reviewed the previous application dated February 7, 2011 which was tied down in License Condition 13.A. Based on the review, it appears that the Stress Room ACU #5 (listed in application dated May 27, 2021) is different than Stress Lab Rm #236 (listed in application dated February 7, 2011), please provide a clarification.
2. Section 8.10.12, "Area Surveys" in the application cited an incorrect regulation (10 CFR 10.1101), please correct the typo and resubmit that section.
3. Based on the request to remove 10 CFR 35.300 material from the license, we will delete the authorization for that material (which is listed for the proposed authorized users in the application) from associated authorized users. Please confirm your understanding.
4. It appears that the contact information for the Radiation Safety Officer (RSO) is missing in our Web-based Licensing system. Please provide the contact information for the RSO (business phone, email, and/or facsimile number).

To continue review of the renewal application, we request that you submit the response with date and authorized signature to this correspondence within 30 calendar days. In your response, please refer the license number, docket number and Mail Control No. 626970.

If you have questions, require additional time to respond, or require clarification on any of the information stated above, please contact me at 630-829-9623 or reply to this email.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this correspondence will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Best regards,

Frank Tran
