Good afternoon Mr. Hunting,

As we discussed during the inspection exit, no violations were identified during the inspection and review of the corrective actions implemented were adequate, so the open violations are now considered closed. I have attached the inspection report.

After my Branch Chief signs this report, I will make it a publicly available safety record for review in the NRC's Agencywide Documents Access and Management System ([ADAMS](#)) online database. You may keep this copy for your records. I would appreciate an email confirming receipt.

Thank you very much,
