National Oceanic and Atmospheric Administration
NATIONAL OCEAN SERVICE
National Centers for Coastal Ocean Science
Silver Spring, Maryland 20910

To: Betsy Ullrich, USNRC Region I

FROM: NOAA-NCCOS Safety Officer

SUBJECT: NRC License Amendment

We are writing to request an amendment to our NRC license number 39-19399-02. The purpose of the request is to update the names of personnel on the license. Our previous Radiation Safety Officer (RSO), Rick Meitzler, has retired. Our new RSO is Ron Gagnon and Reid Osborne as an alternate to handle the administrative duties of the RSO. The duties of the RSO that require any handling of licensed materials will be performed by, or under the supervision of, Tod Leighfield. Staff no longer with NOAA/no longer requiring radiation certification have been removed from the license. The following specific changes are requested:

1) Materials License Supplemental Sheet page 2 of 4:

11. A. The Radiation Safety Officer for this license is Ron Gagnon and Reid Osborne as an alternate RSO to perform administrative duties.

B. Licensed material shall be used by, or under the supervision of Tod Leighfield.

A copy of the new RSO qualifications, and the current license (NRC FORM 374) and a request for amendment (NRC FORM 313) are attached. Thank you for your assistance with this matter.

Sincerely,

GAGNON. RONALD. L
