REFERENCES: Letter dated August 16, 2021, from T. Chapman to U.S. Nuclear Regulatory Commission, "Submission of X Energy, LLC (X-energy) Xe-100 Topical Report: Control Room Staffing Analysis Methodology," X-energy Reference Number XE00-R-R1ZZ-RDZZ-L-000715 Rev. 1 (ADAMS Accession No. ML21228A011)

On August 16, 2021, X-energy submitted the Topical Report referenced above for acceptance and review by U.S. NRC. As part of the acceptance review, a meeting was held on October 14, 2021, to address clarifying questions and newly identified changes in the scope of the Xe-100 control room staffing analysis activity. After further review of this report and associated implementation plans, we have determined a more effective review activity will be to transition the content of the report into a white paper for feedback ahead of future regulatory submittals. Therefore, X-energy respectfully withdraws the above listed topical report and will be submitting a white paper on this subject.

If you have any questions or require additional information, please contact Ingrid Nordby at inordby@x-energy.com.

Sincerely,

Travis Chapman
