Mr. Snider,

By letter dated June 7, 2021 (Agencywide Documents Access and Management System (ADAMS) Package Accession No. ML21158A193), as supplemented by letters dated October 22, 2021 and October 28, 2021 (ADAMS Accession Nos. ML21295A035 and ML21302A208), Duke Energy Carolinas, LLC (Duke Energy) submitted to the U.S. Nuclear Regulatory Commission (NRC or staff) an application to renew the Renewed Facility Operating License Nos. DPF-38, DPR-47, and DPR-55 for the Oconee Nuclear Station (ONS), Units 1, 2, and 3. Duke Energy submitted the application pursuant to Title 10 of the *Code of Federal Regulations* Part 54, "Requirements for Renewal of Operating Licenses for Nuclear Power Plants," for subsequent license renewal.

The NRC staff is in the process of reviewing your application. Based on the review, the NRC staff has identified the attached final requests for confirmation of information (RCIs).

The staff held a clarification call with members of your staff on November 4, 2021. None of the requests were modified as a result of the call.

The schedule for your response to these RCIs were discussed with Paul Guill of your staff, and a mutually agreeable date for the response is within 30 days from the date of this email.

If you have any questions, please contact me by e-mail Angela.Wu@nrc.gov.

Sincerely,

Angela Wu, Project Manager
Division of New and Renewed Licenses (DNRL)
Office of Nuclear Reactor Regulation (NRR)
U.S. Nuclear Regulatory Commission (NRC)
