Hi Dr. Roldan-Otero,

Thank you for your time, and explanation of this process during our Exit Briefing. Blaine and I have been in contact and will be responding to the letter of violations via written response. We will try to have our response back to you by the end of next week.

Thank you again,

Mark Palazzolo

Subject: NRC Inspection Report

Dear Mr. Pallazolo

The attached NRC Inspection Report presents the results of the routine inspection conducted remotely that started on April 27, 2021. On October 14, we discussed the contents of the inspection report, to include the options you have for responding to the four apparent violations identified. In summary, you can respond in writing, request a predecisional enforcement conference, or request an alternate dispute resolution. All of these options were discussed with you during the exit briefing and are explained further in the Inspection Report. Please ensure you contact me within 10 days from the date of this letter with the manner in which you would like to respond to the apparent violations.

Thanks,

Lizette
