NRC Conducts Public Webinar on Technology-Inclusive Alternative Requirements for Commercial Nuclear Plants

On October 28, 2021, the U. S. Nuclear Regulatory Commission (NRC) staff held a public meeting on "Part 5X - Technology-Inclusive Alternative Requirements for Commercial Nuclear Plants," which provides a technology-inclusive deterministic alternative to the current preliminary proposed Part 53 rule language. To support the meeting discussions, the NRC staff released a "Discussion Table" (Agencywide Documents Access and Management System Accession No. [ML21270A005](#)). There was extensive dialogue with stakeholders on several issues including the scope of reactors that Part 53 would apply to, the preferred location of the Part 5X requirements, and the role of PRA and deterministic tools in the design process.

NMSS Staff Held a Public Meeting with Perma-Fix Northwest

On November 4, 2021, NMSS staff held a public meeting to continue discussions with Perma-Fix Northwest regarding the submittal of an application for a limited-scope Part 70 (special nuclear material) license by the end of 2021 (Agencywide Documents Access and Management System (ADAMS) Accession No. [ML21267A532](#)). This is the third in a series of public meetings to discuss the applicants' proposed approach for their application. The pre-submittal topic for this meeting was physical security (ADAMS Accession No. [ML21267A453](#)) Additional public meetings are planned for later this month.

List of Approved Spent Fuel Storage Casks: TN Americas LLC, TN-32 Dry Storage Casks; Certificate of Compliance No. 1021; Renewal of Initial Certificate and Amendment No. 1; Direct Final Rule; 10 CFR Part 72 [NRC-2021-0134; RIN 3150-AK67]

On November 5, 2021, the U.S. Nuclear Regulatory Commission published a notice in the *Federal Register* ([86 FR 61047](#)) amending its spent fuel storage regulations by revising TN Americas LLC, TN-32 Dry Storage Cask listing within the "List of approved spent fuel storage casks" to renew, for an additional 40 years, the initial certificate and Amendment No. 1 of Certificate of Compliance No. 1021. The renewal of the initial certificate and Amendment No. 1 revises the certificate of compliance's conditions and technical specifications to address aging management activities related to the structures, systems, and components of the dry storage system to ensure that these will maintain their intended functions during the period of extended storage operations. The companion proposed rule was also published in the *Federal Register* on November 5, 2021 ([86 FR 61081](#)). This direct final rule is effective January 19, 2022.
