SUMMARY AND ACTION REQUIRED (IF ANY)				
<p>This is a record of the conversation between Laura Cender and Arthur Ewald of Mount Clemens Regional Medical Center regarding the pending NRC license amendment request dated September 23, 2021.</p> <p>Please provide your response to the item outline below by November 19, 2021. You may submit your response to me directly as an attachment via email.</p> <p>1. While the transition to the new HDR system is underway the amended license may authorize quantities of Ir-192 exceeding the 10 CFR Part 37 threshold of 21.6 Ci of Ir-192. Please confirm the aggregated quantities of Ir-192 will not exceed 21.5 Ci at any time. Further, please confirm that you understand that aggregating quantities of Ir-192 in excess of 21.6 curies will require the implementation of a security program in accordance with the requirements of Part 37, and that notification and approval of that security program is required by the NRC prior to aggregation.</p>
