Laura,

The Plymouth, MI facility is no longer in use. We'll prepare the letter, we will need some time to do some digging in the records as the move precedes both Maisy and myself as we were hired to GHD afterwards. Those in charge of the gauges back then are no longer with GHD.

Thanks,
Jeff

Hello Jeff,

One additional question. Is your Plymouth, MI facility still in use, or should it be removed from the license? If it should be removed from the license please provide the most recent leak test records for any moisture density gauges that were stored at that location. If the facility should remain authorized on the license please provide a facility diagram.

Please include a brief cover letter with your response. Thank you, and I apologize for not catching this in my review prior to our earlier discussions. Please let me know if you have any questions.

-Laura

Hello Jeff,

To name a new individual as the RSO please provide a brief signed and dated cover letter along with the individuals training records and a completed Delegation of Authority agreement. A model Delegation of Authority memo is attached and should be signed by both the RSO and their senior management.

When I receive your response I will process it at the same time as the license renewal.

Thanks,
Laura

Laura,

I am following up on status of our license renewal. Also we would like to change the RSO named on the license. We can commence with preparation and submittal of the transfer of RSO duties paperwork. Let us know how you would like us to proceed and what information is required.

Thanks,
Jeff

Hello Jeff,

Thank you for reaching out regarding the status of your pending NRC license renewal. I have completed the technical review, and do not have any questions regarding the information submitted. Due to scheduling of competing priorities it may be up to 2-3 weeks though before the license is actually issued.

Please feel free to reach out to me with any questions.

Thank you,
Laura
