

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

December 1, 2021

Mr. Lazaro Casanueva
Techcomp USA Inc.,
DBA Scion Instruments
11840 West Market PL., Suite K-L
Fulton, MD 20759

SUBJECT: SUSPENSION OF REVIEW OF AMENDMENT APPLICATION DATED
JUNE 7, 2021 FOR TECHCOMP USA INC., DBA SCION INSTRUMENTS

Dear Mr. Casanueva:

This letter refers to your amendment application dated June 7, 2021, for your U.S. Nuclear Regulatory Commission (NRC) license and sealed source and device registration certificate, requesting a new address and distribution location for your electron capture detectors containing nickel-63. Your amendment application is available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML21159A167.

Based on the review, our office determined that additional information was needed from you to continue review of your amendment application. Accordingly, we prepared and sent you a written request for additional information via e-mail dated August 31, 2021. As indicated in an e-mail dated November 16, 2021, NRC must receive a copy of your State of Maryland radioactive materials possession license. To date, that information has not been provided to our office. Accordingly, as discussed in our e-mail dated November 16, 2021, we have suspended review of your amendment application pending receipt of the additional requested information.

This action is taken without prejudice to the resubmission of your request. Please note that when you resubmit your application at a later date, you may refer to Mail Control Number 626943 for the documentation you have already submitted.

In accordance with Title 10 of the *Code of Federal Regulations* Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

L. Casanueva
