MATERIALS LICENSING BRANCH
U.S. NUCLEAR REGULATORY COMMISSION, REGION III
2443 WARRENVILLE ROAD, SUITE 210
LISLE, IL 60532-4352

The University of Minnesota has not conducted principal activities under license number 22-00187-46 for a period exceeding 24 months. The University is requesting to extend the time period established in 10CFR30.36 paragraph (d), so that it can be determined whether future activities will require the retention of this license. This determination will be based on discussion with the faculty members and scientists authorized to conduct these activities.

Due to the agricultural and microbiological nature of the authorized research, the University believes this relief is not detrimental to the public health and safety and is otherwise in the public interest. Please advise on the next steps, or what other options are available to the University regarding this license.

An amendment has been submitted to update the new mailing address to:

University of Minnesota
501 23rd Ave SE
Minneapolis, MN 55455

You may also reach me at vette001@umn.edu

Thank you for your attention to this licensing issue. I look forward to your response.

Respectfully,

Brian J Vetter, Radiation Safety Officer

Subject: [External_Sender] Principal activities letter 22-0087-46

Hi, Tammy:

Please route this letter to the proper person in the licensing branch. I appreciate your assistance with this matter.

Let me know if you require additional information, and if I also need to submit a hard copy to the postal address.

Thank you very much.

bv

Brian J Vetter

Radiation Safety Officer
University of Minnesota
