Subject: [External_Sender] Westinghouse Electric Company, Columbia Fuels Fabrication Facility, 5801 Bluff Road, Hopkins, SC 29061

Importance: High

Westinghouse Electric Company, Columbia Fuels Fabrication Facility, Docket ID NRC-2015-0039

To Whom It May Concern,

I am writing on behalf of the Westinghouse Electric Company in Hopkins, South Carolina. As a native of the Columbia South Carolina community I have had numerous friends who have been employed at Westinghouse. We appreciate the jobs, economic impact and spin off services that accompany the facility and their over 900 employees. The \$60 million in salaries and the spending it represents in communities across the Greater Midlands makes a tremendous impact. As do the corporate contributions of Westinghouse to numerous community projects and non profit programs designed to enhance the lives of our local citizens.

It is has been my pleasure to serve on the Community Advisory Board with Westinghouse and numerous other community leaders as we continue to learn about the various challenges and opportunities of working for a major corporation in the nuclear fuels business. I have found the leadership at Westinghouse to be very forth coming with sharing information regarding operational and safety performance, willing to respond to inquiries regarding operations, safety and community outreach, and proud of their efforts to be responsive to the community. It is apparent they are concerned with the well being of their employees, their community, and with operating within all OSHA, NRC, etc, guidelins.

Thank you for the opportunity to share informaiton on our business neighbor. It is an educational pleasure to serve on the Westinghouse Community Advisory Committee.

Sincerely, Susan Vaughan McPherson
