Jenny Tobin  
NRC Project Manager

I am requesting a 30-day extension for our response to your Request for Additional Information-Renewal of SNM-2013 (RAI), dated October 29, 2021. Based on my initial conversation with OSU personnel followed by my clarification call with your staff yesterday, I believe we can compile the response to the RAI by the end of December.

Thank you, and please let me know if you have any questions,
