General Comment

The NRC must follow the Biden Administration's promise to deliver environmental justice, follow its mission statement, consider the environmental justice impacts of the full nuclear fuel chain, follow the 17 Principles of Environmental Justice in defining environmental justice, update the NRC's Commission Policy Statement on the Treatment of Environmental Justice, incorporate environmental justice beyond NEPA, improve analysis of environmental justice in its NEPA reviews, expand mechanisms to gather public input, and create mandatory trainings for its staff on environmental justice and related topics such as diversity, equity, and inclusion. Thank you.
