## General Comment

1)E.O. 12898 and other environmental justice related nuclear issues must..

a)create new and or substantive requirements and rights.

b)grant rights of protection to people, beings and land, esp if determined it need be applied to parties/finding that points towards the need or acknowledgment of environmental justice(ej), ej communities and issues

c)create the path for environmental justice to be a litagable issue in and around Nuclear Regulatory Commission (NRC) proceedings. it also must investigate and evaluate the issues as presented and based on the principles/values put forth by ej communities, as well as, follow, honor and uphold them

d)create under NEPA, language where racial motivation be cognizable, especially is NRC continue to rely on National Environmental Protection Agency (NEPA) for these gudances

e)environmental asseents must include environmental justice analysis

f)generic and programatic impact statementd must include environmental justice analysis

G) an ej advisory council, that is made up of ej and frontline folks, must have the final say and or have the authority to challenge or overpower any atomic safety and licensing board(aslb) final desicion,

H) all nrc staff and committees must undergo a training put on by folks impacted by the uranium fuel chain that covers jemez and ej principles
