RE: Notification per 10CFR 35.15(b)(5) for Aspirus Keweenaw Hospital License No. 030-18138

Aspirus Keweenaw Hospital, Radioactive Materials License 030-18138, is notifying you of the following changes to our facility's license per 10 CFR 35.14(b)(5) due to the installation of a new gamma camera. This letter is follow up to the letters sent August 30, 2021 and August 31, 2021:

- On November 6, 2021 the temporary mobile unit was removed from the facility. Closeout surveys that included an ambient dose rate surveys and a removable contamination surveys were completed and showed no residual radioactive materials were present. The last use of unsealed radioactive materials in this area was on November 4, 2021.
- The use of radioactive materials in the temporary stress lab on the 3<sup>rd</sup> floor has also stopped. Closeout surveys that included an ambient dose rate surveys and a removable contamination surveys were completed and showed no residual radioactive materials were present. The last use of unsealed radioactive materials in this area was on November 4, 2021.

Please contact me at (906) 337 6535 if you have any questions or concerns regarding this amendment request.

Sincerely,

Nathan McParlan, M.D  
Radiation Safety Officer
