

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

December 6, 2021

ALL AGREEMENT STATES, CONNECTICUT, INDIANA

REVISION OF THE CHRONOLOGY OF THE U.S. NUCLEAR REGULATORY COMMISSION AMENDMENTS INCLUDING SUMMARY OF CHANGE DOCUMENT FOR MISCELLANEOUS CORRECTIONS [RATS ID 2021-2] (STC-21-082)

Purpose: To provide the Agreement States with the Chronology of the U.S. Nuclear Regulatory Commission (NRC) Amendments including RATS ID 2021-2.

Background: The NRC is amending its regulations in Parts 9, 37, 40, 50, 51, 52, 55, 71, 73, and 110 of Title 10 of the *Code of Federal Regulations* (10 CFR). The NRC is making these amendments to correct a grammatical error, punctuation, a reference, formatting, a mathematical formula, and spelling; clarify language; revise contact information; and update an authority citation and internal procedures.

Discussion: The final rule, published on November 30, 2021, is posted in the *Federal Register* (FR), ([86 FR 67839](#)). The Chronology of NRC Amendments, including RATS ID 2021-2, as maintained by the Office of Nuclear Material Safety and Safeguards (NMSS) can be found on the NMSS web site at: <https://scp.nrc.gov/regresources.html>. The chronology is for your use to plan rulemaking actions that are needed to satisfy the compatibility and health and safety category designations of the NRC regulations. This document will also be used by the Integrated Materials Performance Evaluation Program (IMPEP) teams during upcoming program reviews.

The Standing Committee on Compatibility reviewed the rule and determined that the portions of this final rule that amend 10 CFR Parts 37, 40, and 71 are a matter of compatibility with the Agreement States.

In addition, a Summary of Change document for the November 30, 2021, amendment can also be found on the NMSS Web site at: https://scp.nrc.gov/rss_regamendments.html. This summary is for your use to identify the changes to the *Code of Federal Regulations* text as well as the compatibility categories associated with those changes. These regulations are due for adoption by the Agreement States no later than December 30, 2024. We request that both proposed regulations and final regulations be provided to us for review in accordance with NMSS Procedure SA-201, "Review of State Regulatory Requirements."

If you have any questions regarding this correspondence, please contact the individual named below.
