Good Morning Dr. Hawari:

Attached is an electronic version of the NRC staff's request for additional information (RAI) related to the environmental analyses being conducted for license renewal. The letter is dated 21 September 2021 with a requested 30 day response. Scott and I previously discussed this RAI and the overlap with the RAI on breakaway oxidation. Per the letter, if additional time is required, or if you need clarification on any questions, please contact me.
