NUCLEAR REGULATORY COMMISSION**

REGION III
2443 WARRENVILLE RD. SUITE 210
LISLE, IL 60532-4352

December 7, 2021

Chandrakant H. Pujara, M.D.
Radiation Safety Officer
Michigan Cardiology Associates, P.C.
4020 Venoy Rd.
Ste. 200
Wayne, MI 48184

Dear Dr. Pujara,

In the application dated November 30, 2021, Michigan Cardiology Associates, P.C. notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate NRC Materials License No. 21-32468-02. Your application is available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML21326A279.

An environmental assessment for this action is not required because this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (10 CFR) 51.22(c).

The NRC staff has reviewed your final status surveys. Based on its review, the NRC staff has concluded that all licensable radioactive material has been appropriately transferred and residual radioactive material attributable to licensed activities does not exceed current NRC criteria. Based on these conclusions, no further remediation or actions are required with respect to NRC-regulated material. Your facilities are suitable for unrestricted use, and NRC Materials License No. 21-32468-02 is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

If you have questions, please contact the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887.

Sincerely,

Laura B. Cender
Health Physicist
Materials Licensing Branch
