December 14, 2021

Kyle Geise
Manager Test Lab
City of Fort Wayne
200 E. Berry St.
Fort Wayne, IN 46802

Dear Mr. Geise:

This letter is in reference to your request dated November 3, 2021 (ML21308A512), to terminate your U.S. Nuclear Regulatory Commission (NRC) Materials License No. 13-16526-02.

Upon review of your request, I identified the following area where additional or clarifying information is needed:

You are licensed for eight Campbell Pacific Nuclear MC Series portable gauging devices. During the inspection of your facility on August 29, 2018, an agency inspector identified that you had four CPN Model MC Series portable gauging devices in your inventory.

Your request only accounted for the transfer/disposal of two CPN Model MC-3 portable gauging devices, including Device S/Ns M351102922 and M390204845, which were recently transferred on October 19, 2021. Please provide records of transfer/disposal for all portable gauging devices previously in your inventory, including supporting documentation such as leak test reports and records of receipt by the manufacturer and/or licensed waste broker.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

To continue review of your request, please submit your response to this letter within 20 calendar days from the date of this letter. In your response, please refer to the license, docket, and control number specified below. I will assume that you do not wish to further pursue this licensing action if I do not receive a reply within the specified timeframe noted above.

K. Geise

-2-

If you have questions, require additional time to respond, or require clarification on any of the information stated above, I encourage you to contact me at (630) 829-9737 or via e-mail at Jason.Kelly@nrc.gov.

Sincerely,

Jason M. Kelly, MPH
Health Physicist
Materials Licensing Branch
