Subject: Request to review Federal Register Notice Package ML21344A072

Brian,
As we discussed yesterday, if you could please review the 60 day FRN contained in ADMAS package ML21344A072 in the package link below. You have already reviewed the OMB statement but feel free to review it again to refresh your memory. If you have any comments please forward them by the COB Thursday December 16th. I am meeting with Kristen Benney at 3:00 pm on Thursday. If you have no comments, please respond to this e-mail with your approval and I will capture that in ADAMS.
