Subject: Docket No. 50-482: Revision of Two Procedures that Implement the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)

Commissioners and Staff:

In accordance with 10 CFR 50.54(q)(5), WCGS is submitting a change to the emergency plan. Two procedures that implement the WCGS RERP have been revised. The revised documents are identified below:

<u>Procedures</u>	<u>Effective Dates</u>
AP 17C-024, Rev. 17	July 29, 2021
EPP 06-007, Rev. 27	August 02, 2021

The attached summary of the changes to the implementing procedure explain that these changes do not reduce the effectiveness of the WCGS RERP.

This letter contains no commitments. If you have any questions concerning this matter, please contact me at (620) 364-4204.

Sincerely,

A handwritten signature in black ink that reads "Ron Benham".

Summary of Changes to Two Procedures that Implement the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)

1. Procedure, AP 17C-024, "Emergency Planning Responsibilities," Rev. 17

Procedure AP 17C-024 is being revised to ensure the Evacuation Time Estimate (ETE) analysis and Onsite Shift Staffing Analysis are performed and meet the applicable regulatory requirements. The ETE analysis specifically addresses the 10 CFR 50, Appendix E, Section V.6 requirement for submittal to the NRC.

Other changes being made are administrative in nature. These changes include corrections associated with organizational titles due to corporate changes, minor wording change to definition, and step format changes that provide clarity.

The change does not reduce the effectiveness of the Emergency Plan.

2. Procedure, EPP 06-007, "Emergency Notifications," Rev. 27

Procedure EPP 06-007 is being changed to provide enhanced guidance for filling out the emergency notification form(s). These changes provide greater detail and guidance on the required content of emergency notifications, allowing completion of these tasks in a more complete and accurate manner.

Other changes are administrative and include a step correction and organizational descriptions to align with the new Company's organization.

The change does not reduce the effectiveness of the Emergency Plan.
