Subject: [External_Sender] RE: NRC Staff Request for Proprietary Check of Information in Draft Safety Evaluation for Kairos Mechanistic Source Term Topical Report

Hi Sam,

The NRC sent an advanced copy of the Draft SE on the Kairos Mechanistic Source Term Topical Report on October 29th, 2021. Kairos Power reviewed the proprietary markings in that version and determined there is no un-marked proprietary information.

Additionally, the version sent today in the email below contained two highlighted pieces of text on Page 6, that the staff requested an additional proprietary review. Kairos Power reviewed the highlighted portions of text and agrees with the staff that it can be public.

Thanks,
Drew

Subject: NRC Staff Request for Proprietary Check of Information in Draft Safety Evaluation for Kairos Mechanistic Source Term Topical Report

CAUTION: This email originated from outside of the organization.

Hi Drew,

Today I shared with you via the Staff's Box application a highlighted copy of the NRC staff's Draft SE regarding Kairos Mechanistic Source Term Topical Report. The staff requests that Kairos check and confirm whether the information highlighted on page 6 of the document, 1st paragraph under subsection titled "Barrier Evaluation," is proprietary information or if such information can be made available to the public. Kairos can provide a response via email to this request. Please contact me to discuss if there are any questions regarding this request.

Regards,
Samuel Cuadrado de Jesús
