NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

December 16, 2021

James Warden, Director
Office of Nuclear Energy,
Safety & Security Affairs, Room 3320 HST
Bureau of International Security & Nonproliferation
U.S. Department of State 2201 C Street, NW
Washington, D.C. 20520

Dear Mr. Warden:

Enclosed is an application dated December 14, 2021, received by the U.S. Nuclear Regulatory Commission, from Curtiss-Wright Corporation requesting Amendment No. 02 to its export license XCOM1310/01. The license presently authorizes the export of minor reactor components to the People's Republic of China, for use at the Haiyang Nuclear Power Plant, Units 3 and 4.

The purpose of the amendment is to: 1) update the company name of a U.S. Party(ies); 2) add additional Intermediate Foreign Consignees; and 3) add Sanmen NPP Unit 3 to the description of materials for export.

Before taking action on this request, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the requested export meets the applicable criteria in the Atomic Energy Act of 1954, as amended.

Please note that the dollar amount in the application is proprietary information. The NRC will not include this information in the public records and requests that the Executive Branch agencies protect it as well. If you have any questions or need additional information, please contact the licensing officer, Stephen Baker at Stephen.Baker@nrc.gov and cc the licensing assistant, Joanne Savoy at Joanne.Savoy@nrc.gov.

Sincerely,

12/16/2021

X Peter J. Habighorst

Peter J. Habighorst
