Am I going to get a signed letter on that, or just the email response below?

Betsy,

So sorry about that, I had an inspection last week and this action feel off my radar so thanks for the reminder.

We would like to move forward with the increase in the activity amount allowed but not list any specific locations at this time.

Please let me know if you have any additional questions. I will be working tomorrow and then on leave until the new year.

Have a great holiday,
Amy

Checking in again without after our call, because I have not received anything from you since. I am supposed to close this licensing action by January 5. Are you planning to respond with additional information, or are you planning to withdraw the request?

Please let me know I will be working except for 12/24 and 12/31.

Betsy

Betsy,

Thank you for your questions. Let me find out more about these changes and I will get back to you.

Amy

Amy,

You requested locations of use at Redstone and INL. Please provide me with some descriptions of these locations so I can understand why you want them added as permanent locations instead of temporary job sites. Let me know if these locations are intended for all licensed materials or if you are limiting what may be used at these locations. Also, provide enough description so it is clear that there are specific locations at those sites that will be under your license jurisdiction, and not in conflict with other NRC licenses or DOE jurisdiction.

Thanks,
Betsy
