---

Can be used with a NaI probe as QC source or a check source for a GM. It's an exempt qty of under 1 uCi Cs-137.

If the office sells off their equipment I would think that can go with the probe.

Thanks, what is going to happen to the Cs (-137?) check source?

Confirming 3 eVial sources were removed by me & put into Digirads inventory.

They had a small CS button source under the cabinet that was not on the list provided. That source is still there.

Lisa

**Subject:** Transfer of Radioactive Sources from New England Cardiology

Good morning, Lisa or Harry,

Please confirm to everyone on this e-mail that all radioactive sources from New England Cardiology have been removed from their hot lab and transferred to our hot lab and Radioactive Materials License in Woburn, Massachusetts.

Thank you, in advance,

David
