

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION III
2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

NOV 19 2021

Dennis J. Aurand, M.S.
Radiation Safety Officer
Munson Medical Center
1105 6th St.
Traverse City, MI 49684

Dear Mr. Aurand:

Enclosed is Amendment No. 63 to your NRC Material License No. 21-08317-01 in accordance with your request.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

If you have any questions or detect any errors in this amendment, please contact me at (630) 829-9841. My email address is colleen.casey@nrc.gov and my fax number is (630) 515-1078. During the pandemic, reaching me by email is probably the quickest and most efficient way to contact me.

This amendment incorporates a number of changes to your license, summarized as follows:

1. NRC License No. 21-24362-01, licensed under the name of "Munson Healthcare Otsego Memorial Hospital, was requested to be terminated concurrent with its addition into your license above. This has been completed and the terminated license for Munson Healthcare Otsego Memorial Hospital has been transmitted under separate cover.

This location of use has been added to your license and, along with former Condition Nos. 10.F and 10.G, it has been consolidated into Condition No. 10.E.

2. We have added to your license Andrew Kaiser, M.D. for the use of materials in 10 CFR 35.100, 35.200 and 35.300 (limited to the oral administration of sodium iodide I-131).
3. We have added to your license Joseph J. Gibbs, M.D. for the use of materials in 10 CFR 35.200.
4. We have added to your license Ryan R. Hoenicke, M.D. for the use of materials in 10 CFR 35.100 and 35.200.

The enclosed documents contain sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.

D. Aurand

5. We have added to your license Jessica D. Arden, M.D., Ph.D., for the use of materials in 10 CFR 35.400 and 35.600 (limited to iridium-192 in a high dose rate remote afterloading brachytherapy device).
6. We deleted Charles Weitz, M.D. as an authorized user.
7. We updated your authorizations in Subitem Nos. 7.G. and 9.G. to reflect the removal of your former Nucletron B.V. Model microSelectron 106.999 high dose rate remote afterloading brachytherapy device.
8. We updated Condition No. 16, which is reordered.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system.

Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability.

The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system "Agencywide Documents Access and Management System" (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture.

D. Aurand

You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at:

<http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>.

We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".
