Subject: Response to the NRC phone request to affirm a typographical error in the Abilene Christian University QAPD Rev B

I affirm that a recently discovered typographical error exists in the ACU QAPD (Rev B) in the first sentence of Section 1.1 (page 6). The first sentence in Section 1.1 incorrectly defines the acronym, QAPD, as the "Quality Assurance Program Document". ACU's intent was to define QAPD as the "Quality Assurance Program Description". Substituting the word "Document" with the word "Description" provides the language ACU intended for the sentence,

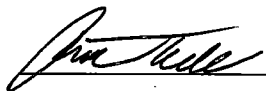

"The Abilene Christian University (ACU) Nuclear Energy eXperimental Testing Laboratory (NEXT Lab) Quality Assurance Program ~~Document~~ Description (QAPD) is the top-level policy document that establishes the Quality Assurance Program (QAP) and assigns major functional responsibilities for all activities associated with the Molten Salt Research Reactor (MSRR) Project conducted by or for the NEXT Lab staff."

If there are any questions or a need for additional information, please contact Dr. Rusty Towell at the address above, by telephone at (325) 674-2034, or by email at Rusty.Towell@acu.edu.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on 12/09/2021.

Very truly yours,

Dr. Rusty Towell, Ph.D.

Director of NEXT Lab
