**SUBJECT: MILLSTONE POWER STATION, UNIT 3 – OPERATOR LICENSING RETAKE
EXAMINATION APPROVAL**

Dear Mr. Stoddard:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing retake examination at the Millstone facility.

The U.S. Nuclear Regulatory Commission (NRC) has approved the subject examination, and the NRC staff will administer the operating test during the week of January 17, 2022. The list of applicants approved to take the examination has been provided to Cristalle M. Walsh, Training Manager. The examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensed operators at your facility, do not administer the examination and contact me at 610-337-5306.

D. Stoddard

Sincerely,

Donald E. Jackson, Chief
