Subject: Revised schedule for HI-STORM 100 CoC renewal
Date: Thursday, January 06, 2022 12:31:00 PM

Good afternoon Kim,

Happy new year to you and yours.

The NRC staff has a revised schedule to provide the HI-STORM 100 CoC renewal package to rulemaking by March 31, 2022. This schedule shift accounts for higher-priority work in DFM (including other reviews for Holtec) and recognizes the CoC is in timely renewal.

I will keep you updated as we proceed with development of the rulemaking package. Please let me know if you have any questions in the meantime.

Thank you,
Kris
