**Subject:** RE: Pending NRC License Amendment Request - Additional Information Requested

Hello Brian,

Thank you for taking time out of your afternoon to discuss your pending NRC license amendment request. I understand from our conversation today that the final I-125 waste disposal shipments from this storage room occurred in May, 2019 and that the calibration date for the survey meter used in the decommissioning survey was August 21, 2020.

Please provide a brief signed and dated cover letter confirming the above, along with any decay in storage or transfer records associated with the final waste disposal shipments such as a spreadsheet record file. You may send your response to me directly as an attachment via email, and please feel free to reach out to me with any questions.

Thank you,  
Laura

**Subject:** Pending NRC License Amendment Request - Additional Information Requested

Hello Brian,

I hope that you are well. I am currently processing your NRC licensing request to decommission a former area of use at your 8211 Scicor Dr., Indianapolis, IN location of use.

In reading through the submitted letter it was unclear to me when the last waste was actually disposed of from the referenced room. Please clarify the timeline of when the stored waste was actually disposed of, and provide a copy of the final decay in storage waste records if they are available. Additionally, please provide the date that the survey meter used for the decommissioning survey was last calibrated.

I also called and left a voicemail earlier today as well. Please reach out to me at 630-829-9712 or via email if you have any questions

Thank you,  
Laura
