Subject: Withdraw Amendment to NRC Materials License Number 21-35144-04 dated October 1, 2021

Dear Colleagues,

We are formally withdrawing the amendment request to NRC Materials License Number 21-35144-04 dated October 1, 2021. The amendment covered possession and irradiation of LEU (among other items) needed to begin Mo-99 production at our Airport Facility (2450 Port Lansing Rd.). We are revising our plans for Mo-99 production and will let you know of any future licensing actions involving our Mo-99 program that can be licensed through Region III.

Thank you for your guidance and oversight throughout the licensing process.

Sincerely,

Dr. Terry Grimm
Chief Executive Officer and Senior Scientist
