

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

February 17, 2022

The Honorable Thomas R. Carper
Chairman, Committee on Environment
and Public Works
United States Senate
Washington, DC 20510

Dear Mr. Chairman:

The U.S. Nuclear Regulatory Commission (NRC) is publishing the following document in the *Federal Register*:

- Title: Revision of Fee Schedules; Fee Recovery for Fiscal Year 2022.
- Description of the document: This is an annual proposed rule that would amend the NRC's current fiscal year (FY) licensing, inspection, special project, and annual fees charged to its applicants and licensees. These proposed amendments are necessary to implement the Nuclear Energy Innovation and Modernization Act, which requires the NRC to recover, to the maximum extent practicable, approximately 100 percent of its total budget authority for the fiscal year, less the budget authority for excluded activities, through fees. Additionally, similar to FY 2021, this FY 2022 proposed rule would not assess fees for import or export licensing activities.
- Dates: The public comment period will close 30 days after publication.

For more information, see the enclosed document. Please contact me at 301-415-1776 if you have questions or need more information.

Sincerely,

A handwritten signature in blue ink, appearing to read "E. Dacus", written over a light blue horizontal line.

Eugene Dacus, Director
Office of Congressional Affairs

Enclosure:
Federal Register notice

cc: Senator Shelley Moore Capito
