Subject: Pending NRC License Amendment - Michigan Cardiology Associates; Additional Information Requested
Date: Tuesday, January 18, 2022 3:49:00 PM

Hello Cari,

I am currently processing your license amendment request for Midwest Cardiology Associates (NRC License No. 21-32502-01) to remove Emmanuel N. Papasifakis, D.O. as an authorized user. Dr. Papasifakis is currently the only individual authorized on the license for 10 CFR 35.100 so additional information is required before they can be removed from the license.

Please provide a signed and dated response indicating if you would like to proceed with the license amendment by either removing the authorization on the license for 10 CFR 35.100, or by adding 10 CFR 35.100 uses to the authorized materials and uses for Dr. Zein. As Dr. Zein is a current AU for 10 CFR 35.200 no additional training and experience documentation is required to name them as a user for 10 CFR 35.100.

Please feel free to reach out to me with any questions.

Thank you,
Laura
