Subject: RE: DoD/NRC MOU Yearly Inventory Submission
Date: Tuesday, January 25, 2022 4:47:00 PM

Mr. Jordan-

I am writing to respond to your November 29, 2021 email providing the annual inventory of DoD sites to NRC per the MOU. NRC staff has reviewed the list and prioritized activities for FY 2022 and plans to stay-informed or monitor, per the MOU, the following sites:

Stay-Informed	Monitoring
Navy	
Alameda Naval Air Station (CA)	Naval Air Weapons Station China Lake (CA)
Brunswick Naval Air Station (ME)	Long Beach Naval Station (CA)
Marine Corps Base Camp LeJeune (NC)	Mare Island Naval Shipyard (CA)
Hunters Point Shipyard (CA)	North Island Naval Air Station (CA)
Naval Weapons Station Yorktown (VA)	Naval Station San Diego (CA)
-	Naval Station Treasure Island (CA)
	-
Army	
Sharpe Army Depot (CA)	Dugway Proving Grounds (UT)
Air Force	
McClellan Air Force Base (CA)	Kelly (Lackland) Air Force Base (TX)
Elmendorf Air Force Base (AK)	Hill Air Force Base (UT)

Thank you for your colleagues' responses to my questions on this year's inventory. They helped us better understand the changes from the prior year's inventory. Note that we discussed Naval Outlying Landing Field (NOLF) Imperial Beach's inclusion on the annual inventory and Dr. Fragoso updated the list to include NOLF Imperial Beach. Given Dr. Fragoso indicated no work would commence until FY24 or FY25, NRC staff have elected not to include it on this year's list of monitoring sites but will re-evaluate involvement annually.

If you have any questions, don't hesitate to contact me.

Subject: [External_Sender] DoD/NRC MOU Yearly Inventory Submission

Mr. Grossman,

I have assumed many of the responsibilities that Deb Morefield previously managed at OSD. I have attached the annual submission of the DoD radiological cleanup sites currently being characterized or remediated.

Please give me a call (505-506-2189) if you would like to discuss any of information supplied in this inventory or if you wish to connect a voice with the new OSD contact.

Thanks,

Brian
