Dear Ms. Schwendenman:

By letter dated October 13, 2021 (Agencywide Documents Access and Management System [ADAMS] Accession No. ML21287A133), the National Nuclear Security Administration (NNSA) submitted an application for approval of the Model No. HI-STAR PBT package. The application is for a new package design to be used by NNSA to perform its Tritium Modernization Program mission. The results of the complete acceptance review will be provided to you in the March timeframe.

The specific information requiring additional testing is described as request for supplemental information (RSI) in the enclosure to this letter. Please note that addressing these RSIs does not preclude the staff from issuing further requests for additional information (RAIs) during the course of the detailed technical review of this application.
